

Technical Data Sheet

LocoWash 007 – Super Concentrate

Product Description

LocoWash Super Concentrate is a water based mild alkali cleaner which has been specifically developed for the removal of carbon based deposits, grease, dirt and inorganic residues. It does not contain any volatile solvents, is fully biodegradable and is non corrosive to ferrous and non-ferrous metals. LocoWash 007 is a super concentrated version of LocoWash 304, a leading formulation in the exterior train cleaning market producing enhanced cleaning performance. The concentrated version reduces transport costs and packaging and hence the associated impacts on the environment are also reduced. It can be applied via automated systems or manually, and the exceptional rinse-ability provides a streak free gloss finish. The product has been independently tested by Scientifics Limited, proving complete removal of a wide variation of soil found on railway rolling stock.

Features

- Superior cleaning on a wide range of soils
- Fully biodegradable
- Non-corrosive
- Super concentrated, therefore reducing transportation costs
- Independently tested for use in the rail industry

Properties

Appearance:	Two Layers of Yellow/Brown Liquid
Specific Gravity (Density) @ 20°C:	1.197g/ml
pH:	10

Directions for Use

LocoWash 007 is designed to be diluted to the required strength from 0.5% to 5% depending on the level of mechanical action used and severity of soiling. The product is packaged in such a way that the unit package is completely consumed for a targeted final dilution volume (i.e. for some applications a 5 litre container is completely consumed when diluted into a full IBC (1000L final volume)). The package should be thoroughly shaken before decanting into the required container and all residues fully rinsed from the package, ensuring accurate dilution. Dilute with water to the required volume/concentration. The product can be used at temperatures ranging from ambient to +40°C. Rinse thoroughly after cleaning. LocoWash 007 is designed for use via any conventional spray/mechanical system or by hand/brush application.
