

Technical Data Sheet

LocoWash 181 – Organic Acid Cleaner

Product Description

LocoWash 181 is a soluble organic acid cleaner specifically designed to remove iron deposits and rust stains generated by wheel, track and braking systems, which are found upon train exteriors. In addition to its excellent cleaning ability, LocoWash 181 is fully biodegradable and does not crystallize, blocking spray heads and pipe work. The product has been independently tested by Scientifics Ltd with excellent results. In addition to its excellent cleaning ability, LocoWash 181 is fully biodegradable and contains corrosion inhibitors to protect all metals used in rail carriage and engine construction.

Features

- Removes iron deposits and rust
- Fully biodegradable
- Non-corrosive
- Water-based, contains no volatile solvents
- Independently tested for use in the rail industry

Properties

Appearance:	Clear Amber
Specific Gravity (Density) @ 20°C:	1.05g/ml
pH:	3

Directions for Use

LocoWash 181 is designed for use via any conventional spray/mechanical system or by hand/brush application. For wash plant use the suggested level of dilution is 1:40. Actual dilution will depend on the severity of soiling and the use of mechanical action, however. Suggested dilutions should be in the range of 1:25 to 1:150 depending on the application requirements.
