

## Technical Data Sheet

# LocoWash 304 - Mild Alkali Cleaner

### Product Description

LocoWash 304 is specifically designed to remove all types of soiling found upon train exteriors and general interior surfaces. The product has been independently tested by Scientifics Ltd, proving complete removal of a wide variation of soil found on railway rolling stock. LocoWash 304 is a leader in the exterior train cleaning market producing enhanced cleaning performance. It provides exceptional rinse-ability and a streak free gloss finish. In addition to its excellent cleaning ability, LocoWash 304 is fully biodegradable and non-corrosive to all metals used in rail carriage and engine construction.

### Features

- Superior cleaning on a wide range of soils
- Fully biodegradable
- Non-corrosive
- Water-based, contains no volatile solvents
- Independently tested for use in the rail industry

### Properties

Appearance:	Clear Amber
Specific Gravity (Density) @ 20°C:	1.03g/ml
pH:	10

### Directions for Use

LocoWash 304 is designed for use via any conventional spray/mechanical system or by hand/brush application. For wash plant use the suggested level of dilution is 1:40. Actual dilution will depend on the severity of soiling and the use of mechanical action, however. Suggested dilutions should be in the range of 1:25 to 1:150 depending on the application requirements. Rinse thoroughly after cleaning.
